

A central yellow lightbulb with a black cord is surrounded by various school supplies and symbols on a light blue background. These include a red pencil, a blue pencil, a stack of papers, a cloud, a molecular structure, and several small white dots and plus signs, all arranged in a circular pattern around the lightbulb.

Programming

10 Steps to Solving Any Programming Problem

Are you stuck at the stage where you can understand what the tutorial code does but can't move on to making the code do what you want? Remember, step 1 is to simply "play computer". Pretend you are a computer and walk through what the code tells you to do step-by-step.
